

AIA Northern Virginia Allied Professional Membership

AIA Northern Virginia offers both Corporate and Individual Allied Professional memberships.

When you join the Chapter as an Allied Professional member, you have the opportunity to connect with over 1,200 local architects, interns and allied professionals in the design and construction industry, enabling you to gain a high level of visibility.

Develop contacts, exchange information and promote your products, services and technical expertise. Expand your knowledge through our continuing education seminars or present your seminars to our members. Keep informed of the latest news within the local architecture community through our newsletter, website and emails.

Corporate Allied Professional Membership is for companies interested in developing business opportunities and promoting their services and products to architects and related professionals. Benefits at this level offer companies increased visibility by inclusion in both our Chapter's printed and online membership directories, where we publish information about your company, organized by specialty, as an easy way for our members to find sources for the services they require. Corporate benefits also include discounts on AIA Contract Documents, reduced advertising rates for our newsletter, complementary postings on our job board and the opportunity to list your continuing education events on our website.

Individual Allied Professional Membership is for individuals interested in networking with local architects, receiving current information about the profession and invitations to Chapter events, and participating in continuing education opportunities. Allied members have the right to identify themselves as an "Allied Member of the Northern Virginia Chapter of the American Institute of Architects." We encourage allied members to become involved with the Chapter by attending events and interacting with our committees.

We encourage our members to contact our Corporate and Individual Allied Professional Members for services.
