The Northern Virginia ARE Prep Series was awarded the Council of Architectural Component Executives (CACE) ARE Excellence Award at the recent CACE Annual Meeting in Detroit. Selected from among chapters nationwide, our chapter was recognized “for designing a comprehensive ARE Prep Program that prepares emerging professionals for the ARE exam and at the same time offers AIA CE credits.”

Join us at our 40th Annual Chapter Meeting

Our 40th Annual Chapter Meeting takes place on Tuesday, October 20 at 6:30p at Maggiano’s Little Italy at Tyson’s Galleria. Known for their great Italian food, no one will leave hungry after feasting on a selection of appetizers, salads, pasta, classic Italian entrées and tempting desserts, all served family style.

Also, during the evening we will hold elections for our 2016 chapter officers and directors and honor the service and achievements of several colleagues as we presents our Honor Awards.

Please join us. Guests are also invited to attend. Tickets are available at: www.aianova.org/annualmeeting.php

Chapter Election Information

Chapter elections will be held at the meeting and by mail-in ballots (see ballot and instructions in this newsletter) for the Executive Committee, six Director positions and three AIA Virginia Director positions.

ARE Prep Program Recognized for Excellence

The Northern Virginia ARE Prep Series was awarded the Council of Architectural Component Executives (CACE) ARE Excellence Award at the recent CACE Annual Meeting in Detroit. Selected from among chapters nationwide, our chapter was recognized “for designing a comprehensive ARE Prep Program that prepares emerging professionals for the ARE exam and at the same time offers AIA CE credits.”

Congratulations to our Young Architects Forum co-chairs Anna Barbour, AIA and Spencer Lepler, AIA and their committee for planning such an outstanding ARE program. Thank you to all our instructors and volunteers, and to our host locations – Jacobs for Structures, Dewberry for Building Systems, and especially to AECOM for hosting all our Wednesday and Saturday sessions.

The exceptional letters of support from both Rachael Johnson, AIA and Spencer Lepler, AIA were a fundamental piece of the submittal, demonstrating the impact of the program on their path to licensure. Please join us for our award-winning ARE series in 2016!
Good Architecture is Concerned with People

by Sean E. Reilly, AIA
AIA Northern Virginia President

The shade is welcome and live guitar music permeates the space. Food, drink and seating options are numerous indoors and out. Families and friends enjoy time together marked by laughter and conversation. Others on laptops work, research, learn and surf. It is a summer Sunday afternoon at San Pedro Market. Far from being a singular architectural statement, San Pedro is created from a series of old buildings and new spaces knitted together in a dense urban environment – for people.

The Market in the San Pedro Square district in downtown San Jose – a district which combines the arts, housing, retail and history – is a lively people-oriented place. Serving as a gathering place for centuries, recent economic development reinvigorates San Pedro Square by renovating historic buildings and integrating new structures with the existing fabric to create an urbane and human-scaled sequence of spaces. San Pedro Square enriches the lives and health of thousands of people every day through thoughtful space making and respect of history.

“Good architecture is concerned with people. If we forget about people when we design, then we become concerned with fashion and external styles rather than reality and substance. Architects will continue to produce good and bad architecture. Good architecture will prevail because it responds to human needs… it is satisfying to build, delightful to behold and enduring – it has a timeless quality.” This quote from Pietro Belluschi on his 90th birthday continues to be a source of inspiration. It speaks to the ultimate purpose of architecture.

San Pedro Square and Pietro Belluschi point to the ultimate purpose of our profession. Architecture is a profession for and about people. For spaces and buildings to become architecture they have to be about the people and the human activities they are intended for. AIA Northern Virginia is concerned with people, specifically how to ensure members’ AIA experience is valuable and relevant, reconnect with the public in a deeper way and support the next generation of architects.

The Young Architects Forum (YAF) coordinates the annual ARE exam preparation courses to help the next generation become licensed architects. In August the comprehensive program was recognized by the AIA Council of Architectural Component Executives with the CACE ARE Excellence Award. And, in September YAF hosts the Chapter’s annual celebration of all

Learn about current trends in roofing at this half-day training session. Firestone Building Products will present 4 sessions:

**Single Ply Roofing Assemblies** Describes the two types of single-ply roof covers - Thermoset & Thermoplastic, explains the basic installation methods of each and gives market breakdown by product. Includes material comparisons & concerns, specific system types and advantages & disadvantages of each.

**Commercial Roofing Technologies** A discussion on the importance of insulation, today’s codes & standards and the environmental issues surrounding commercial roofing.

**Introduction to Daylighting Systems** An overview of the various types of rooftop daylighting systems. Includes a comparison of each of the types, the energy savings potential from engineered daylighting systems and the human health benefits derived from natural lighting.

**A Designer’s Guide to Vegetative Roofing** A comprehensive overview of vegetative roofing, involving the various types of systems, the implications of fundamental design integration with the roof system, storm water control issues and the importance of irrigation systems.

4 HSW LUs. Lunch will be provided courtesy of Firestone Building Products. Register at: [http://aianova.org/event.php?eventID=1187](http://aianova.org/event.php?eventID=1187)

**Framework for Resilient Design**
Award-winning firm Eskew+Dumez+Ripple helped New Orleans rebuild after Hurricane Katrina. Join architects Z Smith and Collette Creppell to learn EDR’s strategies for designing resilient communities and applying the firm’s new resiliency framework to any area. The course includes case studies and concrete examples to apply. 1 HSW LU. Register at: [https://aiau.aia.org/courses/framework-resilient-design-lessons-new-orleans-go-national](https://aiau.aia.org/courses/framework-resilient-design-lessons-new-orleans-go-national)

**Infrastructure, Resilience, and Public Space**
Learn how to build resilient urban systems and design site-specific solutions for the new norm: An unpredictable and changing global environment. Using case studies from Silicon Valley, New Orleans, Bangalore, Qui Huang Dao, you’ll explore tactics to mitigate sea-level rise, flooding, waste water, urban density, and more. 1 HSW LU. Take advantage of AIAU’s bundle discount and save an additional 15% when you buy four or more courses. That’s 15% off the special member price of $25/course. Non-members save 15% off the non-member price of $40/course. View all courses at: [https://aiau.aia.org/courses](https://aiau.aia.org/courses)
newly licensed architects. The Schools Connections Committee builds bridges between the profession and academia. They will soon bring another successful Interschool Design Competition to fruition that will be viewed by the public at the National Building Museum. In November, the Canstruction Committee will facilitate Build-Out Night at Reagan Washington National Airport, where over 480,000 weekly visitors will have an opportunity to see all of the incredibly creative entries on display. The Women in Architecture Committee (WIA) is one of our most active committees. Last month we learned that after much hard work, WIA was selected to host the 2017 National WIA Leadership Summit, a vital conference which supports and recognizes future women leaders of our profession.

These and all of our Chapter committees consist of thoughtful, passionate people with an unswerving commitment to improving our members’ AIA experience. It is people such as these that breathe new life into our great profession and ensure it remains vital to society for generations to come. Our profession is a relatively small group that has the potential to bring tremendous value to all people everywhere through architecture and their aspirations for a better, healthier and happier life.
Alexandria’s George Washington Masonic National Memorial (http://www.gwmemorial.org) was designated as a National Historic Landmark (NHL) in August by the National Park Service. The Landmark Program recognizes sites that possess exceptional value and quality in illustrating or interpreting the heritage of the United States.

The Masonic Memorial is only the 6th site so honored in Alexandria. Also designated as landmarks are the Alexandria Historic District, Christ Church, the Gerald R. Ford, Jr. House, the Franklin and Armfield Office and Gadsby’s Tavern.

As cited by the National Park Service, “The George Washington Masonic National Memorial stands among the most architecturally significant projects to honor George Washington and one of the boldest private efforts to memorialize him. The Grand Lodges of the states and territories, which usually operate independently, joined forces to build this national memorial. This eclectic building combines neoclassical architecture common to American memorials and civic buildings with a modern skyscraper design.”

Along with the Masonic Memorial, three other designated sites became landmarks yesterday: First Peoples Buffalo Jump in Cascade County, Montana; Lafayette Park in Detroit, Michigan; and Red Rocks Park and Mount Morrison Civilian Conservation Corps Camp in Jefferson County, Colorado. You can see a complete list of all landmarks at http://www.nps.gov/nhl.
YAF Party for Newly Licensed Architects

On September 14 we toasted our newly licensed members!

Thank you to Helene Combs Dreiling, FAIA, Executive Vice President/CEO of AIA Virginia and Valerie Hassett, FAIA, AIA Virginia President, for joining us at the celebration and to KGD Architecture for hosting the party.

Thanks to our Young Architects Forum for planning the event, especially Anna Barbour, AIA; Raedun de Alba, AIA; Jennie Gwin, AIA; and Spencer Lepler, AIA. And a special thanks to all the staff at KGD for their help and warm hospitality.

I-r: Newly licensed members: Amanuel Admassu, AIA; Chelsea Lindsey, AIA; Brain Earle, AIA; Rachael Johnson, AIA; Adela Firoozfar, AIA; Michael Dinka, AIA; Kelly Drewry, AIA and Joshua McKenrick, AIA. Jennie Gwin, AIA, Photographer
Bell Golf Tournament

A great fall Friday is awaiting your golf clubs. Putt against a robot designed by students and keep an eye out for drones orbiting the course.

Please join BELL, the education foundation for Manassas Park City Schools, at the Round for Education Golf Tournament to help raise funds to support Science, Technology, Engineering and Mathematics (STEM) education for all students, grades K-12.

We hope to count on you – hole and sponsorship packages begin at just $250. Golfer fees of $200 buy you 18 holes, 2 mulligans, beverages during play, pre-tournament light lunch, dinner at the Award’s Ceremony as well as opportunities at prizes and raffles.

Mark your calendar for a fun day of golf on Friday, October 16 at Old Hickory Golf Club in Woodbridge. Tee time is 12:00 p.m. You can register and pay online at http://geo.gl/forms/zDw1cDYUcG or visit http://mparkbell.org for more information.

We look forward to seeing you on the green. Thank you for your support.

Upcoming CRAN Seminars

Capital Area Custom Residential Architects Network

Performance Characteristics of Pultruded Fiberglass
September 29, 11:30 a.m.

Composite materials have been used for thousands of years and new applications are identified each year. As one of the first modern composite materials, fiberglass is at the forefront of this innovation. This course will familiarize you with the basic aspects of fiberglass composites, specifically pultruded fiberglass, and target their usefulness and environmental advantages in the window and door industry.

Organized by AIA Northern Virginia for the Capital Area CRAN and sponsored by TART Lumber and Marvin Windows and Doors, this seminar is presented by Joe Haddon, Architectural Representative with Marvin.

At TART Design Center in Sterling. 1 HSW LU. This presentation is free to attend and lunch will be provided courtesy of TART. Register here:
http://aianova.org/event.php?eventID=1178

High Performance Housing: Mainstreaming Multifamily Sea Containers
November 4, 6:30 p.m.

SeaUA is the first sea container housing project in the nation’s capital. The project went from napkin to occupancy in an astonishing 6 months in 2014. The 18 sea containers yielding 24 bedrooms are marketed to millennials abutting the Catholic University of America (CUA) at the Brookland Metro stop. The housing units all use sustainable engineered wood interiors with high performance energy conservation designs. Presented by Travis Price, FAIA and Kelly Davies Grace, Assoc. AIA with Travis Price Architects.

Cocktails & Learn with Travis Price: High Performance Housing – Mainstreaming Multifamily Sea Containers is organized by AIA|DC for the Capital Area CRAN and sponsored by McCullough Construction LLC & The Boffi Georgetown Showroom.

1 HSW LU. $10 Students & Assoc. AIA members; $15 AIA & DAC members; $35 Non-members.

At the Boffi Georgetown Showroom, 3320 M Street NW, Washington, DC.

YAF Nationals Baseball Game

AIA NOVA’s Young Architects Forum, the Structural Engineers Association of Metropolitan Washington Young Members Group and AIA|DC’s Emerging Architects Committee enjoy 80s night and a Nats win over the Marlins at Nationals Park on August 29.
Women in Architecture Charity Spa Night

October 26
6:00p

In recognition of breast cancer awareness month, Women in Architecture and Circe of Alexandria will host the annual charity Spa Night on October 26. Enjoy an evening of networking and indulge in one or more of the six mini salon and spa treatments. Profits from the event will be donated to the National Breast Center (http://www.nationalbreastcenter.com).

The $30 registration fee includes six mini spa treatments sparkling wine and hors d’oeuvres. Last year this event raised $1500 for the Center and was attended by 70 women.

The National Breast Center’s goal is to increase survivorship within our region. The organization offers survivorship programs, physician programs and an Early Detection Alliance.

AIA Northern Virginia Women in Architecture Selected to Host 2017 Women’s Leadership Summit

We are pleased to announce that the AIA Northern Virginia Women in Architecture Committee has been selected as the host for the AIA Women’s Leadership Summit 2017!

One of nine groups submitting proposals, the selection committee selected Northern Virginia because of the incredible scope of collaboration, both locally and regionally, to host the Summit. WIA has reached out to chapters in the Region of the Virginias and the Mid-Atlantic Region to collaboratively plan the Summit. Watch for more details and opportunities to volunteer soon.

AIA Northern VA Scholarship Fund 2015

Call for Entries

AIA Northern VA Schools Connections Committee is pleased to announce they are accepting entries for the 2015 AIA-NOVA Scholarship Fund. Winners will receive a monetary award to be used for tuition/supplies in an accredited architectural program. First place will win $1,500, Second place $1,000, and Third $500. Scholarship entries shall consist of a single smartphone case design that depicts your architectural design ability and best demonstrates why you are deserving of this scholarship. Submissions should include a visual case that promotes architecture to all cellphone users and makes people interested in architectural design or architecture school. This is a case that should act as an advertisement for architecture as a whole!

Submissions are to be e-mailed to AIAAnovascholarship@gmail.com and are limited to a standard 8.5”x11” PDF of 3MB maximum, laid out according to this template with your design placed in the area for back of case and your personal information on area for front of case.

Eligible students must be rising 4th year and higher and must be enrolled in an accredited architectural program in VA or must live within Northern VA Chapter boundaries and attend an accredited architectural program elsewhere in the country. Entries are to be judged anonymously; include your name, year/degree program, address, e-mail, and phone number on the template space for the front of the case. You can also include a brief description of the design intent of the case with max 3 sentences. Entries will be retained by AIA NOVA for future publication and a printed phone case of your own. Good luck!

Win $50 and your own phone case!

Deliver Entries to: AIAAnovascholarship@gmail.com

Due Date:
Friday October 30th, 2015
The Beverly Willis Architecture Foundation (BWAF) has announced the opening of their crowd-sourced nomination form for Built by Women DC (BxW DC) – a competition designed to recognize the contributions of women to DC’s built environment. Based on BWAF’s successful BxW NYC prototype, BxW DC will include the DC Metropolitan area to make visible the often-invisible work of women in design and construction.

Nominations will be accepted through October 31, 2015. After nominations close, a jury of building industry professionals, experts and historians will choose the most outstanding sites nominated for inclusion in the BxW archives. BxW DC winners will also be honored at a weekend program at the National Building Museum in March 2016, which will coincide with Women’s History Month. For more information and to access the nomination form, visit: http://bwaf.org/bxwdc

The AIA Baltimore | Women In Architecture Committee, in collaboration with the Baltimore Architecture Foundation and Morgan State University, has embarked on a project to assemble the stories and work of women architects and design professionals who designed projects in Maryland in the 1920’s-1960’s. To showcase their findings, they have compiled a travelling exhibit titled Early Women of Architecture in Maryland, 1920’s-1960’s. The exhibit is currently on display at the AIABaltimore Gallery (http://www.aiabaltimore.org) through October 30. To see a complete exhibit schedule visit: http://www.aiabaltimore.org/early-women-of-architecture-traveling-exhibit-schedule-2015-2016

Chapter Elections Information

Chapter elections will be held at the meeting and by mail-in ballots (see ballot and instructions in this newsletter) for the Executive Committee, six Director positions and three AIA Virginia Director positions.

Thank you to the Nominating Committee for all of their work.

- Scott S. Matties, AIA, Chair
- William T. Brown, AIA
- Karen M. Conkey, AIA
- Theresa P. del Ninno, AIA
- Meagan W. Jancy, AIA

Special thanks to those who are stepping down from office. We heartily thank them for their outstanding service.

- Brian J. Donnelly, AIA
- Scott S. Matties, AIA
- Beth Reader, FAIA
- Rachel I. Williams-Clark Assoc. AIA

The Nominating Committee has put forth the following slate of candidates. Nominations may also be made from the floor.

Meagan W. Jancy, AIA, elected as President Elect last year, becomes President and Sean E. Reilly, AIA becomes Past President.

Executive Committee

President Elect/1st Vice President
Karen M. Conkey, AIA
Practicing for more than 20 years in the metro area, Karen has worked on projects ranging from small residential and historic renovations, restaurants and retail spaces, to large, mixed-use commercial and multifamily residential projects. She is the founding principal of Conkey Architects LLC, and her passion for art, architecture and good design drives her to volunteer in her community. Karen currently serves as Chapter Treasurer.

Treasurer
Theresa P. del Ninno, AIA
Theresa is a principal at Maginniss + del Ninno Architects, joining the firm in 2000. She received her Bachelor of Architecture degree from University of Notre Dame in 1981. Theresa has substantive international experience, managing her own consulting practice in Guinea, West Africa and Dhaka, Bangladesh where she designed projects for such clients as the United Nations and international medical organizations. Active in her community, she serves as chair for the Alexandria City Board of Architectural Review Parker Gray and is active with the AIA Northern Virginia Women in Architecture Committee.

Secretary – T.J. Meehan, AIA
After receiving his architectural degree, T.J. began his career by working in several architectural firms across the US where he gained experience on both commercial and residential projects. Transitioning from the design-side of the industry, he has now become a recognized expert on the technology-side, working for CADD Microsystems as their Vice President of Professional Services. He is an Autodesk Implementation Certified Expert and has presented at many industry events, including Autodesk University. A registered architect and LEED® accredited professional, T.J. leverages his skills to help companies successfully train and implement architectural and M/E/P software.

Chapter Directors

Six Directors continue their terms in 2016.
- Manoj V. Dalaya, AIA
- Carter Jones, AIA
- Joseph B. McCoy, AIA
- Jin Soo Park, AIA
- Kathryn T. Prigmore, FAIA
- Stephen R. Wakeman, AIA

Six are nominated for office:

Director/2nd Vice President
Christopher S. Kehde, AIA
nominated for a three-year term
Christopher received his Bachelor of Architecture from the Virginia Tech in 1997. His studies included a semester abroad in Riva San Vitale, Switzerland. He has worked on a variety of project types including single family residences, religious structures, public safety facilities, retreat centers and multi-story office buildings, and is currently a Principal with LeMay Erickson Willcox Architects. Christopher is a graduate of AIA Virginia’s Emerging Leaders in Architecture Honors Academy and he has served as a Director for AIA Northern Virginia for the last 5 years.
Director/2nd Vice President
Spencer E. Lepler, AIA
nominated for a one-year term
Spencer has been living and working in the Washington, DC area since 2005. He holds a Master of Architecture and a Certificate of Preservation Studies from Tulane University. He is currently co-chair of the Chapter’s award winning Young Architects Forum Committee and one of the founding members of the Chapter’s 360 Mentoring Program. Nominated by the Chapter, Spencer was a member of the 2012 AIA VA Emerging Leaders in Architecture Program. In addition to his work in architecture, Spencer has previously served on the Board of Directors for Dominion Stage of Arlington. He is currently on staff at LeMay Erickson Willcox Architects in Reston. His creative outlet is Fiber Arts.

Director – Morgan B. Danner, Associate AIA
nominated for a three-year term
Morgan received her Bachelor of Architecture and Master’s in Management and Marketing from Rensselaer Polytechnic Institute in 2013. She is currently working as an Architect Design Manager with the U.S. Navy in the Naval Facilities Engineering Command at the yard in downtown DC. Morgan currently is on the Schools Connections Committee and is organizing this year’s AIA NOVA Scholarship Design Competition. She stays active year-round as the Pole Vault Coach at Langley High School, which contributed to her induction into the Rensselaer Olympia Hall of Fame.

Director – Jody Gibson, AIA
nominated for a three-year term
Jody is a Senior Architect and Project Manager at USI Commercial providing Architectural Surveys and Due Diligence services nationwide. Jody has over 20 years of experience in multimillion-dollar architectural projects. She received a Bachelor of Science in Architecture from the University of Maryland and a Masters in Real Estate Development from Johns Hopkins. Jody has served on the AIA NOVA Board and Women in Architecture Committee since 2013. She has also served on the Potomac Valley Board of Directors and taught an architectural Career Discovery Studio for Gifted and Talented high schools students at the Arlington County Career Center. With extensive world travel, Jody enjoys foreign languages.

Director – Jay Scruggs, AIA
nominated for a one-year term
Jay is an Associate Vice President and the Director of the Alexandria office of Hammel, Green, & Abrahamson (HGA). Founded in 1953, HGA is an integrated architecture, engineering and planning firm with a global focus on the healthcare, corporate, arts, community, higher education, and science/technology industries. Jay has 23 years of experience as a Designer and Manager working on the design and construction of aviation, educational, commercial, industrial, institutional and residential facilities. He has an extensive history of executing complex and intricate projects, with a concentration on sustainability and Federal Design/Build projects.

Director – Edward D. Weaver, AIA
nominated for a three-year term
Ed is Vice President and an Architecture Practice Leader at the AECOM National Capital office in Arlington. He is a previous Chapter Board member and Officer, and is currently involved with various committee activities. A graduate of Virginia Tech, his nearly 30-year portfolio stretches from government agencies and higher education, to justice, aerospace, corporate and defense projects. With a dedication to integrated design principles and a collaborative process, he manages the firm’s planning, design and engineering work at the NASA Langley Research Center, the Goddard Space Flight Center and for various other defense, institutional and private sector clients.

Two AIA Virginia Directors continue in 2016.
• John A. Burns, FAIA
• Al Cox, FAIA.

Three are nominated for office:

Director – Spencer E. Lepler, AIA
nominated for a two-year term
See above for information on Spencer.

Director – Randall A. Mars, AIA
nominated for a one-year term
Randall Mars has been practicing in the Washington, DC metro area for over 35 years, and began his own firm, Randall Mars

Mail-in Ballots

For those unable to vote in person at the meeting, we are introducing mail-in ballots for this year’s election.

To comply with Virginia regulations and AIA Northern Virginia bylaws, ballots must be printed, completed and mailed to the Chapter House. To be tallied, mailed ballots must be received at the Chapter House at least one business day prior to the Chapter’s Annual Meeting, so by Monday, October 19 for this year’s election. Ballots returned by email or fax cannot be accepted.

All assigned members of AIA Northern Virginia can vote. This includes AIA, Associate AIA, FAIA, Emeritus and International Associate AIA members. Members must complete all the required information on the ballot, check the box confirming assigned membership and sign the ballot before mailing.

For questions, please contact the Chapter at (703) 549-9747 or aianova@aianova.org

Let the next big development project you work on be you.

EARN FREE ONLINE CONTINUING EDUCATION CREDITS

At BIA, we want to be a credit to your profession. Literally. Architects can now earn AIA/CES learning units by completing classes on the changing face of brick veneer construction. For free. The classes are online—so you can take them when time allows. From your home or your office. How convenient is that?

Get started today at www.gobrick.com/education.

Boosting Energy Performance in Brick Walls - 1 AIA/CES LU (HSW)
Brick Masonry Rain Screen Walls - 1 AIA/CES LU (HSW)

New courses will be added throughout 2015.

Director - Carolyn Rickard-Brideau, AIA
 nominated for a two-year term
Carol is a current member of the AIA Virginia Board of Directors and a former past president for the Northern Virginia Chapter. She is a Senior Partner at Little, and the Office President for the firm’s Washington, DC location. Among the first cohort in the U.S. to receive provisional WELL Accreditation, Carol is a frequent lecturer and writer about the impact of the built environment on human health, and an exuberant advocate for how human-centric design can make people happier, healthier and more effective. Carol received her Bachelor of Science degree from The Catholic University of America and her Master of Architecture degree from Virginia Tech.
2016 Election Ballot for Chapter Officers and Directors

This ballot may be used by assigned AIA Northern Virginia Chapter members unable to vote in person at the Chapter’s 2015 Annual Meeting on October 20, 2015.

Election information, candidates nominated for each office and short biographies of the candidates are published in the September/October 2015 issue of AIA Northern Virginia News.

Voting Instructions

• Only assigned members of AIA Northern Virginia can vote (this includes AIA, Associate AIA, FAIA, Emeritus and International Associate AIA). Members must confirm assigned membership by providing their name and AIA number and by signing and dating the ballot.

• To comply with Virginia regulations and AIA Northern Virginia bylaws, ballots must be printed, completed and mailed to the AIA Northern Virginia Chapter House, 205 South Patrick Street, Alexandria, Virginia 22314. Ballots returned by email or fax cannot be accepted.

• To be tallied, ballots must be received at the Chapter House by 6:00p on Monday, October 19, 2015, one business day prior to the Chapter’s Annual Meeting.

• Envelopes must contain the entire ballot, be sealed and marked “Ballot.”

• Members can write-in a candidate’s name, keeping in mind that all candidates must be assigned members of AIA Northern Virginia.

• Select the number of candidates noted for each office.

• For questions, please contact the Chapter at 703-549-9747 or aianova@arianova.org.

Member Identification

☐ Randall A. Mars, AIA
☐ Other: ___________________________________________

*Please note that candidates with one-year terms are filling incomplete terms on the board, except for the first three officer positions which are all one-year terms.
Since 1985, the Fairfax County Exceptional Design Award program has recognized achievement in the total design of a building and its site. The awards aim to raise awareness of outstanding planning and design projects among design professionals and the general public.

The design jury for the Fairfax County Exceptional Design Awards Program met July 15 and selected eight entries to receive awards. Entries were judged on four criteria:

- Exemplifies a superior work of architecture
- Incorporates total site design and landscaping
- Takes into account the context of the work in relationship to its surroundings
- Applies energy and water conservation, and other green building practices

The design awards program is sponsored by the Fairfax County Board of Supervisors and administered by the County’s Department of Planning and Zoning in cooperation with the County Architectural Review Board and AIA Northern Virginia. The 2015 Awards Ceremony will be held on October 6 during the Board of Supervisors meeting.

Additional information is available on the County website: [http://www.fairfaxcounty.gov/dpz/designawards/2015](http://www.fairfaxcounty.gov/dpz/designawards/2015)

AIA Leadership Institute Broadcast

October 23

In today’s rapidly changing global market, leadership training is needed more than ever to support the advancement of design professionals around the world. The vision of the Leadership Institute is to provide leadership education for architects and emerging professionals to empower AIA members towards becoming effective leaders within their firms and within the communities they serve.

The program goals:
• To share best practices on topics of leadership, design and practice.
• To build a community of people, knowledge and content that will advance leadership development.
• To provide relevant content for all AIA members, at any career stage in their professional journey.
• To create a national discussion on leadership that connects the many diverse groups within the Institute.

This broadcast is sponsored by the College of Fellows in partnership with the Center for Civic Leadership, the Young Architects Forum, the Small Firm Round Table and the National Associates Committee.

Conference attendees have the option to register at one of the five locations. These local venues will host both the National Broadcast from Washington, DC, as well as local programming from their region, featuring workshops and speakers. For those not located near one of the venues, online viewer registration will become available at a future date.

Venue Locations:
Washington, DC – Hosted by AIA National
Boston – Hosted by Boston Society of Architects
Cleveland – Hosted by AIA Cleveland
Phoenix – Hosted by AIA Arizona
San Antonio – Hosted by AIA San Antonio

Details and registration are available from:
http://www.aialeadershipinstitute.com

Contribute to the AIA Virginia PAC

Through this Political Action Committee, the membership of AIA Virginia supports candidates for state office who understand the profession and support its goals. AIA Virginia uses the collective power of its membership to participate in the legislative and regulatory policy making process. By speaking with a united voice, architects influence government actions that affect our profession and the quality of life for Virginians.

To gain greater visibility, particularly in this election year, we need more members like you to join our efforts and speak up for architects. For only 10 cents a day, you can influence the future of the profession. Make a contribution of $36.50 today:
http://www.vsaiapac.org

Contribute to AIA National’s ArchiPAC

ArchiPAC elevates the voice of architects on a national level and engages members to build and support relationships with federal candidates to better our profession and improve our communities. A strong PAC provides us with an opportunity to ensure that the candidates for Congress who support our initiatives and issues get elected.

Decisions affecting our profession will be made whether we are part of the conversation or not, so it is critical that we have a seat at the table to represent our membership, our issues and our concerns. Donate at:
http://www.archipac.org

Both the AIA Virginia PAC and ArchiPAC support candidates without regard to party.
Emerging Leaders in Architecture, an Honors Academy of AIA Virginia, is a year-long leadership program offering presentations, discussions and collaborative activities at locations across the state. The program also incorporates a class project which serves to help participants put the knowledge and skills they are learning into practice. Applications for the ELA Class of 2016 are now being accepted.

Each local AIA chapter in Virginia has the opportunity to nominate a single applicant to the ELA program. Northern Virginia nomination includes a confirmed place in the program and offers a financial commitment to cover up to 50% of the selected candidate’s ELA tuition. Interested applicants may also apply to the ELA program independently of chapter nomination.

If you are interested in seeking Chapter nomination please submit the following items:

• A letter to the Board of Directors explaining why AIA NOVA should nominate you
• A copy of your current resume
• A draft of your essay required for the ELA application

Information on the 2016 program and application process can be found at: www.aiava.org/prof_dev_news/call-for-applications

Submissions for Chapter nomination are due by October 5, 2015 to aianova@aianova.org. Applicants not selected for Chapter nomination will be notified by the middle of October to allow enough time to apply independently to the program by the November 15 application deadline.

It’s official! The Branch Museum of Architecture and Design is now the name of what has been the Virginia Center for Architecture.

“In the coming months, you’ll see the changeover as The Branch names replace current references to the VCA,” says The Branch Executive Director Helene Combs Dreiling, FAIA. “Our trustees have renamed the museum The Branch to honor its Tudor revival home – The Branch House – a 1916 Monument Avenue jewel designed as the Branch family residence by esteemed architect John Russell Pope. We have also broadened our mission and vision statement to encompass design as well as architecture, so look for new innovative exhibitions, educational programs and partnerships here that will elevate our understanding of design and its influence on our lives.”

The Branch Museum of Architecture and Design is located at 2501 Monument Avenue in Richmond and is open to the public Tuesday through Friday from 10:00a-5:00p; Saturday and Sunday from 1:00-5:00p: http://branchmuseum.org
From 2013 to 2016 the Chapter has experienced an 80% increase in rent. Therefore, the Chapter Board has voted to increase our dues amounts by $10 for Architects and $5 for Associates.

Our 2016 dues will be $170 for Architects and $60 for Associates. In 2006 our Architect dues were $145 and our Associate dues $50. For Architect dues, that represents a 17% increase over 11 years. The inflation rate over the past eleven years is 18%.

AIA National dues will increase by $4 for Architects, to $260, and by $2 for Associates, to $112. AIA Virginia will keep dues rates at the same level as last year – $310 for Architects and $163 for Associates.

To support our emerging professionals, we are introducing a graduated dues program, at all three levels of the Institute, for newly licensed Architect members. This allows for a gradual increase in dues amounts over three years. We also offer complementary membership for up to 18 months for new graduates (see below).

For questions, please contact the Chapter at (703) 549-9747 or aianova@aianova.org.

### Free Membership for New Grads

The AIA offers 2015 graduates complimentary membership at the Associate level for up to 18 months, that’s through all of 2016. That’s free membership at the local, state and national levels.

AIA Northern Virginia offers real benefits you can use:
- Active Young Architects Forum
- Networking opportunities
- Mentoring
- ARE Prep classes
- Free lending library of ARE study materials
- Help finding a job
- Building + construction tours
- Social events
- Leadership opportunities
- Relevant (and free) continuing education offerings
- Community service projects
- A design award just for Associate members

The New Graduate Incentive program includes those who have graduated from both NAAB and non-NAAB Institutions, as well as IDP candidates. Additional information and applications are available from: [http://www.aia.org/join/assoc-newgrad](http://www.aia.org/join/assoc-newgrad)

The AIA offers complimentary membership for 2015 graduates for up to 18 months. Note that this promotion begins upon date of graduation and not your join date (e.g., a June 2015 graduate receives complimentary membership through December 31, 2016).

### AIA Digital Transformation

An initiative of the AIA Small Firm Round Table, AIAKinetic is a smartphone-based guide for architects covering what it takes to be successful in practice. It is a career guide for emerging professionals, a primer for young architects and a resource for mid-career professionals – easily accessible on multiple platforms.

Developed in conjunction with the app’s content editor Rena M. Klein, FAIA (editor of The Architect’s Handbook of Professional Practice, 15th Edition) and the AIA’s Young Architects Forum, AIAKinetic is a constantly growing collection of succinct, 250-word articles, short enough to be easily read and long enough to convey essentials of architecture practice.

Architects from all over the country have seeded Kinetic with more than 250 valuable articles. All users are invited to provide commentary as well as additional articles. The SFRT has a team of editors and curators committed to keeping the content fresh and current.

“It’s an empowering tool,” says Brian J. Fricke, AIA, a principal at Kerns Group Architects in Falls Church, and SFRT chair. “You’re going to learn about best business practices, you’re going be able to contribute by rating and commenting on the articles, and with AIAKinetic you can earn points that you can cash in for purchases from the AIA.”

Details are available from: [http://network.aia.org/smallfirmroundtable/home](http://network.aia.org/smallfirmroundtable/home)

AIA Kinetic is fully operational and available for any user anywhere to download on both iOS and Android platforms:

### 15 for 12 - Always a Deal!

AIA will once again offer a special rate for new members who join between October 1 and December 31. The 15 for 12 promotion gives new members the rest of this year free of charge and membership through 2016. So encourage your colleagues to take advantage of this special. New members also enjoy free registration for the 2016 AIA Convention in Philadelphia. Information will be available starting 10/1 at: [http://www.aia.org/join](http://www.aia.org/join)
Washington, DC and the surrounding suburbs are largely comprised of a housing stock that is traditional in style. While there are many older neighborhoods with an abundance of beautiful historical houses, there are also plenty of neighborhoods that are comprised primarily of nondescript post war houses. In the last few decades, developers have constructed the vast majority of new housing stock. These houses are too often oversized, poorly scaled and detailed imitations of beloved houses from bygone eras. They often replace smaller houses and are much too large for their lots, render the lots treeless and are poorly sited with no regard for solar orientation or climatic impact.

A recent transplant to Washington, DC in search of a smaller, well designed, modern house became increasingly frustrated in his search. He viewed this non-existing inventory as a gaping hole in the local real estate market and used it as an opportunity to become a sought after seller. Purchasing an underpriced house in Bethesda, the newly-turned developer sought to provide a property offering the amenities he was unable to find. His house was to be spatially and energy efficient, modern, light-filled and site specific to the tight corner lot. He also wanted it to be built efficiently in terms of cost and sustainability, both important factors in deciding to renovate the existing post war house rather than tearing it down.

To appeal to the broadest market, it was decided to provide three possible options to potential buyers: the Page, the Nelson and the Montgomery. Each of these offered different floor plans and options. This strategy was intended to minimize financial risk with the goal of pre-selling one of the schemes prior to building the project.
AIA Compensation Report - Get an exclusive look at salary trends in the architecture industry with the 2015 AIA Compensation Report. You’ll find salary data for 39 architecture firm positions in 27 states, 27 metro areas and 15 cities; an analysis of current conditions and trends, and where the market is heading; and detailed job descriptions. The Report is the industry’s most comprehensive resource on salary and compensation, designed to help you understand your value and make the best decision for your career or business

http://www.aia.org/practicing/economics/AIAB090947

New Addition for the 2015 Compensation Report – A Salary Calculator Tool – You can use this complimentary tool to see mean and median salary for 17 architectural staff positions, cut by nine regions of the country or five firm size categories. Try this new, FREE tool today:

AIA Committees Recruiting Members – AIA is seeking nominations for members to serve on AIA national committees. Members will be required to submit a resume and a letter of interest for each committee application by October 15. Committee descriptions are available from:

http://www.aia.org/practicing/AIAB107031

Free Online Code Seminars – The Virginia Department of Housing and Community Development (DHCD) offers free online educational seminars through the Virginia Building Code Academy Knowledge Center. Certificates will be provided and learning units can be self-reported to the AIA:

According to the recently released NCARB by the Numbers, Virginia has a total of 7,085 licensed architects, the 8th highest number in the country, behind only California, New York, Texas, Florida, Illinois, New Jersey and Pennsylvania. Of the 7,085 in Virginia, 40% are resident licenses and 60% are reciprocal licenses. According to NCARB, in 2014 there were 107,581 architects across their 54 jurisdictions, an increase of 1,734 from 2013. This marks the third consecutive year of growth in the number of architects. To download a complete copy of the 2015 edition of NCARB by the Numbers, a report which provides national statistics about the profession, visit:

BRIK: New AIA Member-Only Research Databases Now Available – The Building Research Information Knowledgebase (BRIK) includes a new member-only subscription feature that increases access to practice-relevant research. Three EBSCO academic research databases (Art and Architecture Complete, the Avery Index to Architectural Periodicals and the Sustainability Reference Center) are connected to BRIK and accessible to AIA and NIBS members. An annual BRIK subscription is $40 per user. Details are available at:

http://www.brikbase.org

Call for Nominations: 2016 AIA Collaborative and Professional Achievement Awards and 2016 Honorary Membership – Help us recognize the efforts of your peers for their excellent service to the architecture profession. The Collaborative and Professional Achievement Award nominations are due October 2 and Honorary Membership nominations are due October 16. Learn more at:

Intern Development Program (IDP) Firm Awards – Do you know any firms that excel in the professional development of younger members? Encourage them to apply for the IDP Firm Award or the IDP Outstanding Firm Award by September 28:

Office Space Available – 7,393 SF

Office space is located at 5650 General Washington Drive, Alexandria, Virginia, off the Edsall Road exit of I-395. Ample parking and excellent visibility along General Washington Drive. Contact Gwen Edwards at gedwards@renaudconsulting.net for more information.

Office Space Available – 875 SF and 825 SF

Two office spaces are available for rent in Old Town Alexandria, including parking, Internet and shared equipment. The spaces are located in the Chapter House on Virginia Tech’s Washington Alexandria Architecture Center campus. Email Henry Hollander (hrh@vt.edu) or Jaan Holt (jholt@vt.edu).
The fall 2015 issue of *Home and Design* features an article about our Design Award winners. Titled, Design Scene, the article begins on page 70 and includes a list of all winning projects and images of all the winning residential projects.

Damon K. Leverett, MFA, AIA was recognized with the 19th Annual Distinguished Architecture Alumni Award, established by the Lawrence Tech University Architecture Alumni Cabinet. This awarded is given annually to an honorable alumnus in recognition of local, national and international professional accomplishments; support of the College of Architecture and Design; and charitable, volunteer and community service. Damon will be honored and present a lecture on October 1 at Lawrence Technological University in Southfield Michigan.

**MTFA Architecture** recently completed the design for Loudoun County’s newest Middle School. The new 184,000 sf school anticipates a capacity of 1,350 students, a much needed addition to the growing Brambleton area. The program includes classrooms, labs, media center, gymnasium, cafeteria and administrative suite oriented around a welcoming and secure entry courtyard. With construction commencing soon, it’s cause for celebration for Project Manager Dale Leidich, RA and Project Architect Meagan Jancy, AIA, LEED® AP BD+C, as well as the rest of the MTFA Architecture design team.

**BKV Group** has added three prominent staff members to their office. Mark Manetti, AIA, LEED® AP, a new Associate Partner with BKV , brings 21 years of experience with public clients and will be leading the office’s government practice group. With 25 years of experience, Jim Hansing, AIA, LEED® AP, will be leading the construction administration process. Matt Brooke, AIA, has joined the architectural team as project architect, bringing his breadth of experience and commitment to building community through architecture.

Karn Charuhas Chapman & Twohey (KCCT) is celebrating its recent No. 10 ranking in the Washington Business Journal’s 2015 Book of Lists, where architecture firms are ranked by 2014 metro-area billings. With only 55 employees, KCCT is the only firm with fewer than 100 total employees to rank within the Top 10. KCCT is one of only two firms on the list of 25 located exclusively in Washington, DC.

KGD Architecture recently completed several interior projects, including two speculative office suites for the Willco Companies on the second and sixth floor of 1275 Pennsylvania Avenue; the first Qatari Diar U.S. Corporate Headquarters located at the heart of its owners first development project in the area, CityCenter DC; new law offices for Davidson Bergquist Jackson + Gowdey; and the public space renovation of the Mill Road Marriott Residence Inn in Alexandria for Miller Global Properties.

Due to their continued growth, **Cooper Carry** is pleased to announce that the firm has named five new Principals: Andrea Schaub, AIA, LEED® AP is a graduate Georgia Institute of Technology and is a Principal with the Hospitality Specialty Practice Group; Bill Halter, AIA, LEED® AP has spent the last 30 years specializing in the design of corporate and commercial office buildings and is a Principal with the Corporate Specialty Practice Group; Robert Just, AIA, LEED® AP has more than 20 years of experience in sustainable design and adaptive reuse and is a Principal with the K-12 Education Specialty Practice Group; Kim Rousseau, LEED® AP ID+C is a Magna Cum Laude graduate of the University of Florida and serves as Principal of the Corporate Specialty Practice Group; and Manny Dominguez, AIA, LEED® AP has designed buildings in the United States, Middle East, Asia, Europe and Central America and is a Principal with the Hospitality Specialty Practice Group.

**DBI Architects** is pleased to announce the recent completion of two projects. They have designed their first brewery, the Caboose Brewing Company in Vienna, reimagining an old industrial warehouse along the W&OD bike trail as a community-oriented craft brewery and family-friendly, farm-to-table restaurant. Raj Banga, AIA served as director of the project. The firm also designed a new headquarters for Emergent BioSolutions Inc. The team, led by Michael Boyer, AIA, worked closely with company employees to design an innovative work environment that embodies Emergent’s core values and provides a positive and energetic atmosphere.

**KGD Architecture** participated in the NAIOP Capital Challenge, an annual intercollegiate real estate case study competition organized by the NAIOP Maryland/DC Chapter. The winning George Mason University students were advised by KGD.
Architecture (Architect), JBG Companies (Developer), StructureTone (Construction), Dewberry (Civil Engineering), Cushman & Wakefield (Broker) and Bank of America (Finance). The Capital Challenge provides students the opportunity to gain “real life” real estate experience by working beside some of the best development professionals within each discipline. Also, KGD partnered with Make-A-Wish and The Walsh Group to construct a dream tree house for 9 year old Nathan, inspired by his favorite game Minecraft.

GPI Greenman - Pedersen, Inc. provided design for the new offices of the Center for Disease Control and Prevention (CDC) at Metro IV in Hyattsville. The scope of work includes design of the mechanical, electrical, plumbing and fire protection systems for the 104,000 sf multi-floor space. The project consists of a complete build out and an 80% open office solution, including a conference center with multiple conference room spaces. The project is currently under construction and pursuing LEED® Certification.

Cooper Carry opened three incredible new projects this summer: an addition and renovation of the Emory University Chemistry Building; the Dr. Betty L. Siegel Student Recreation and Activities Center at Kennesaw State University Student Center; and the eight-story Hyatt Place Baltimore/Inner Harbor.

Hiring or Looking for a Job?
The AIA Northern Virginia’s Online Job Board can help.

Chapter members can easily post job opportunities free of charge. And those looking for a job should regularly check the postings. Just visit the job board to get started: www.aianova.org/jobs.php.

The Chapter also maintains a digital resume library. If you wish to include your resume, please send a PDF to aianova@aianova.org.

If you are hiring and would like to request the resumes we have in our library, just let us know at nd we’ll email you the resumes we have for the level of experience you need.

Another source for both employers and job-seekers is the National AIA Career Center: http://careercenter.aia.org.
